PROFILE

Hi, I am a full stack web developer with focus on backend development. My passion is building beautiful websites with great interfaces and features. I am currently knowledgeable in MERN stack, and currently learning other MERN technologies. I am hoping to learn other webdev stacks and continue doing competitive programming in the future.

EDUCATION

B.Tech Information Technology Maharaja Surajmal Institute of Technology - 8.3 CGPA	09/2023 – present Delhi, India
CBSE Board Aadharshila Vidyapeeth - 83%	03/2021 – 03/2023 Delhi, India

- | | | | |
|---------------|--------------|-------------|----------------|
| • Node.js | • Express.js | • MongoDB | • React.js |
| • TypeScript | • MaterialUI | • Bootstrap | • Tailwind CSS |
| • Embedded JS | • JavaScript | • HTML5 | • CSS3 |

PROJECTS

KinoFlow

Kinoflow is an all-in-one platform designed to simplify how you track, discover, and share movies. Whether you're a casual viewer or a cinephile, it helps manage your movie library, find personalized recommendations, browse new releases, and share reviews effortlessly.

--> Node.js, Express.js, MongoDB, Embedded JavaScript, Bootstrap

Portfolio Website

This is my personal portfolio with a minimalist retro design, consisting of bio, details, tech stack, projects, interests and contact information.

--> HTML5, CSS3, JavaScript, Bootstrap, MDB

Tejix AI Chatbot

This is a full functional AI chatbot application built using MERN stack and TypeScript. It uses Groq API for functionality and its a completely secure application with password encryption and JWT Tokens. (currently in development)

--> MongoDB, Express.js, React.js, Node.js, TypeScript, Bootstrap, Groq

YelpCamp

YelpCamp is a full-stack website project where users can create and review campgrounds. In order to review or create a campground, you must have an account. This project is a part of Colt Steele's Web Development Bootcamp course on Udemy. (currently in development)

--> Node.js, Express.js, MongoDB, EJS, Bootstrap
